

Jonas Lindeborg/Andreas Andersson presents:

# Urban Soul

Their first release "Nothing is impossible" introduces a nordic horn driven smooth jazz album featuring an all star line-up!

Some words about the album:

*"The groove is overflowing and the joy in this music has no limits!"*

*"Give this album a place in your heart. You won't be a better person for it, but you'll get closer to your ideal!"*

*"The sound of this album is just so refreshing with all these great musicians playing live in the studio!"*

The debut album "Nothing is impossible" is released in June 2015 (*Two-Timer Records*) and will be available worldwide shortly after.

This album was recorded live in the legendary studio of Benny Andersson (ABBA) in Stockholm, Sweden.

The horns of Lindeborg/Andersson have been heard on recordings and on tour with an extensive list of Swedish and international artists. While touring with Björn Skifs (*Hooked on a feeling*) the idea was born to pay tribute to the genre that had always been closest to their hearts. The dream was to take their favorite players/singers to a studio and make an album which Lindeborg describes as

***"a heartfelt, energetic smooth jazz record featuring all of our favorite friends from Sweden and abroad"***

This release features an impressive lineup:

Chart topping star Jonathan Fritzén, Michael Ruff, former Chicago lead singer Bill Champlin, Jojje Wadenius (*Steely dan, Simon and Garfunkel*) and Jonas Wall (*Nils Landgren, Mezzoforte*), just to name a few...

*-I mean, the guys in our band are totally stunning and we're forever grateful*, says Andreas and refers to the topnotch band including Anders Hedlund (*Robyn*) Tobias Gabrielson (*Timbuktu*), Calle Flemsten, Peter Friestedt (*Champlin/Williams*) and Andy Pfeiler just to name a few.

The result: **a horn driven, organic smooth jazz album with vocal elements from some of the worlds most renowned artists in the genre.**
